The CFA & Volunteering

Our guest speaker this month is from the CFA and will be in uniform and therefore on his best behavior!! Ray Griffin has promised to tell us about his experiences in the CFA and volunteering in general. In his words he has promised to "tell the truth, the whole truth & nothing but the truth."

President's Piece

Disappointing! We cancelled the September Wonthaggi trip because we only had 3 replies. Will we reschedule in the future - probably not, because of the amount of work involved and especially as the mine is closed and we had a private guided tour arranged. I understand that we may have other commitments on the day. What I don't understand is that some people, these days seem to have an attitude of "I will see how it looks on the day". Sadly, that does not work for runs etc. that need confirmed numbers.

In recent months I have written about where CHACA is headed with meetings and runs. Some ideas have been floated and thought about and I think there is some merit in these, including a "coffee morning" at various locations around Melbourne. Other clubs have these and attendance is good. Also on the agenda is the thought that instead of the monthly meeting as such, that we have a social meeting. Reports etc. can be printed in the Journal. Committee will discuss the options at their next meeting. If you have any ideas or options please speak to a committee member.

Our AGM is approaching rapidly and I am ever hopeful that we will have some new blood on next year's committee, especially younger members so that we can cater for everyone. The positions are rewarding, not time consuming and can always be streamlined to suit. We meet bi-monthly via Zoom so a committee member can live anywhere. Please think about it.

Please save the dates for the Club Display Day & Melbourne Cup Event, Ladies Night in November, the Club Christmas Lunch & Presentation Day at Chateau Wyuna and other Club or combined Club events for the rest of the year. Details in this Journal.

As always, the message is

Drive your historic vehicle while you can.

CHACA Run to Kerrisdale Mountain Railway

The view from, "Strathview", the first stopping point on the railway, halfway up a 1:12 slope.

On Sunday 28th August 2022 CHACA members visited the Kerrisdale Mountain Railway, built, owned & operated by Andrew & Jennifer Forbes. The weather could not have been better. We met at the BP service Centre Wallan for Coffee and enjoyed a scenic drive to Kerrisdale, which is in the mountains between Seymour and Yea. We were given a ride on the train, which runs zig zag fashion, on a narrow, 2 foot gauge, track, up the steep hillside. The scenery was magnificent and Andrew provided interesting historical & geographical commentary.

In addition, we were given a guided tour of the workshop, a demonstration of various steam driven implements and were informed about the construction of the Locomotive named Douglas, which was built on site by Andrew.

We then drove to the Seymour Club for a delicious lunch with much conversation.
Thank you Trish, for organising a really enjoyable Sunday.

Dennis and Esther Healy

"Douglas", a narrow gauge steam engine built from scratch by Andrew. Parts were acquired over several years and put together in a magnificent piece of workmanship.

A Letter to Editor

Dear Editor,

I've owned my left-hand-drive, 7-passenger Chevrolet sedan since I was 18. Now that I'm in my 80's, and because of the bad behaviour of many drivers, I hardly drive it.

I now realize I have more spare parts than I'll ever need. I'd appreciate your publishing my list in the news-letter, lest these parts are discarded in the future.

I've not put a price on anything and am prepared to accept a reasonable offer on the lot. Thank-you.

1948 Chevrolet car parts for sale.

Stylemaster dash board shell with glove box lid, clock, centre piece, speedo.

Steering box assy. with gear-change shaft, new sector shafts, pitman arms, tie rods, tie rod ends.

Brake shoes & link plates & anchor plates, master cyls. & pedal assemblies, drums, backing plates, hand levers, cables & chassis fittings..

Engine valve rocker assy., cyl. head bolts, push rods, oil pumps, con. rods, harmonic balancers, valve springs, oil filler pipes w/- caps, exhaust pipe fittings.

Clutch plates, forks, bearings. Pressure plates. Boot hinges, badges, handles, prop arm. Bonnet hinges, Stylemaster badge, front locking panel & plate. Water pumps, thermostat housings, radiator. Propeller shaft housing w/- prop. shaft, bell end & differential. Propeller shaft housing bells. Gear box mounts, universal joints, vacuum assisted gear-change assemblies w/- brackets. Front & rear shock absorbers. Rear spring shackles & pins. Front lower spring control arms & stub axle assemblies.

Rear axle shafts. Speedo cables. Generators. Voltage regulators. Distributors. Dip switches. Battery cradle assy. Windscreen wiper motors & rods. Tail lights & new lenses. Door locks & window regulators. Hub caps & wheels. Sill moulding clips. Inner head-light rims. Interior mouldings. Body panels. Mudguards. Petrol tank w/- filler pipe. Original jack & more.

Most of these new & used parts have been in my possession since the 1950s. Also for sale are rear axle shafts for 1940 Chevrolet car.

- They are surplus to my needs and all must go.

Jenny completes rally as first solo female

By Emma Turnbull

As the hot sun pelted down, Bundaberg's Jenny Sorensen pushed on to become the first solo woman to drive almost 5000 kilometres from Brisbane to Broome in her vintage vehicle.

The vast open outback of Australia was the scene for most of the 25-day journey, which has left the 75-year-old local with fond but challenging memories.

The Veteran Car Club of Queensland, in conjunction with the Heritage Motorcycle Club of Western

Australia, had 20 veteran motorcycles and 24 cars take part in this year's trip.

On Thursday only five of the cars crossed the finish line without having the assistance of a tow vehicle.

Two of those cars were driven by Bundaberg women.

If Jenny's 1915 Saxon had an odometer it would have read 4752 kilometres travelled for the trip as the first solo female driver in the Brisbane to Broome Rally.

Jenny's sister-in-law Anne-Marie Sorensen, with driving assistance from her husband, also pulled into Broome in her 1914 Saxon.

Described as a gruelling trip, Jenny said it was definitely an emotional journey that gave her time to appreciate life itself.

"Being a woman and having other women alongside you for the trip was the emotional part for me," Jenny said.

"My mother climbed Uluru when she was 75, and so I decided this is the adventure I would have at 75.

"In the early days there were a few hiccups – we had a couple of 'boils', which was worrying as the radiators got really hot.

"My second boil was when I was shooting along doing 80km/h and others couldn't keep up.

"I was watching the gauge and it was all fine, it didn't go up, until smoke started coming from the floorboards.

"Thankfully it didn't do any damage and my husband, who was in our support car behind, helped me take the bonnet off to keep her cool."

Jenny said there were times when she thought twice about what she was doing and wondered if she'd make it in her car that was more than a century old.

"Most days it was 30 degrees plus, and in the old cars the only air con is natural air con.

"The hardest thing was the massive headaches I would get by going through those conditions.

"There were moments when I wanted to throw in the towel.

"The sun was pelting down and the winds – there was a lot of cross wind and you really had to keep your eyes on the road to make sure the car would stay on the road."

Leaving Caboolture on Sunday 17 July Jenny said she was rugged up for winter conditions, but this soon changed, just as the scenery did.

"There were these beautiful big, magic rocks that would then turn into plateaus – it was amazing to witness," she said.

"You don't realise what a diverse country we live in.

"It gave me a lot of time to think about life.

"I have no regrets and I am actually really chuffed with myself.

"There were other girls that drove too, just not all the way by themselves. So, I think of the girl power and say 'yay to the girls'."

Bundaberg Vintage Vehicle Club members who successfully travelled 4667km across the country for the 2022 Brisbane to Broome Rally included Anne-Marie and Ron Sorenson, John, Pam and Peter Handley, Rob and Kim Nicolson and Jenny and Chris Sorenson.

The rally raised money and awareness for the Royal Flying Doctor Service and the Blue Tree Project which is a collaborative initiative to raise mental health awareness and wellbeing in the country areas.

Ray Griffin gave an excellent presentation using old home movies from the 70s showing CHA-CA events, members and cars from the past. Rays recall of names, vehicle identities along with anecdotes was excellent and solicited a lot of humour on the night. The most noticeable part of the films was the number of young children attending events indicating the general age group of members in those days.

CHACA CLUB PERMIT SCHEME ELIGIBILITY GUIDELINES

CHACA is a VicRoads authorised Club to participate in the VicRoads Club Permit Scheme (CPS).

VicRoads has set rules to determine the eligibility of vehicles for the Club Permit Scheme. These may be viewed in the CPS handbook or on the VicRoads website. CHACA has set its own additional requirements for vehicles to be submitted for the CPS using CHACA's authorisation. The additional requirements are in line with the original CHACA charter of vehicle originality and preservation.

The following are CHACA's requirements for Members submitting vehicles for CPS assessment.

1. The vehicle must have been manufactured prior to 1st December 1992.
2. Vehicles submitted for CPS application must be as the manufacturer originally designed and built. Some modifications are permitted in line with the original manufacture option list, are period correct, or are based on safety issues, but in all cases must not detract from originality. Replicas derived from a lower model are acceptable as long as the appearance is as original as possible to the intended vehicle model (e.g. GT Falcon from a base Falcon).
3. Applicants for the CPS will certify that the vehicle submitted will remain roadworthy during the permit period and unmodified from what was originally submitted.
4. Once a vehicle has been accepted by CHACA for CPS it will be the members' responsibility to maintain the vehicle as originally presented, with no further modifications and in a roadworthy condition for all permit renewal applications.
5. Determination of the eligibility for any vehicle submitted to CHACA for CPS will be at the discretion of the Committee. Vehicle CPS application must be submitted to the Technical Officer in writing.

For further questions, please contact the committee.

BUY, SWAP AND SELL

Advertisements in this column will appear for three consecutive months unless instructions to the contrary are received by the Editor. Victorian State laws require all advertisements for registered vehicles to display a Price and Registration Number, and for unregistered vehicles, the sale price together with the engine or VIN/Chassis number.

Advertisements that do not comply with the above will not be listed, nor will it be the Editor's responsibility to seek such information.

SELL: I have just replaced the axle on my old trailer, about 35 years old, due to the fact I could only get vintage tyres for the rims. The rim width is 4" and the tyres fitted are 16" x 5.5".

I have 3 rims. Two have tyres fitted. The tyres are keeping pressure, but are pretty old. As you see I have the hubs as well, but probably not any good. I was wondering if anyone in your club would have a use for these. I don't want anything for them, but don't really want to bin them. I am in Mooroolbark and work in Eltham, I could drop them off if in the general area.

Ken's Joke of the Month

Did you ever wonder why there are no dead penguins on the ice in Antarctica?

Wonder no more! It is a well known fact that the penguin is a very ritualistic bird, and lives an extremely ordered and complex life. Penguins are committed to their family and mate for life, as well as maintain a form of compassionate contact with their offspring throughout the remainder of their life.

If a penguin is found dead on the ice surface, other members of their family and social circle have been known to dig holes in the ice using their vestigial wings and beaks, until the hole is deep enough for the dead penguin to be rolled into, and buried.

After packing the ice back in to the hole, the male penguins then gather in a circle around the fresh grave and sing; "Freeze a jolly good fellow, Freeze a jolly good fellow."

You didn't really think I know anything about penguins, did you?
